(a)<sup>1</sup> Limits shall be based on the surface water and groundwater basin objectives and/or beneficial uses listed in Appendix B.

<sup>2</sup> Nephelometric Turbidity Units.

<sup>3</sup> Limits are subject to any updated Basin Plan objectives.

<sup>4</sup> The limits are based on the CTR criteria

<sup>5</sup> Toxic Unit-Chronic is the reciprocal of the effluent concentration that causes no observable effects on the test organism to die by the end of an chronic toxicity test
